Georgia's colonial population was a very culturally diverse group. The poor and oppressed from England and Europe were brought together through the idea of mutual protection and prosperity to create the 13th colony. A colony free of slaves and "demon rum" where many would take the chance to start life over in a new and dangerous land. From letters, journals and documents of the period, the story of Georgia comes to life through the eyes of her founder, Governor General James Oglethorpe.
